Furniture socket 2x2P+E, black

Marka: **Orno** | Symbol: **OR-GM-9005/B** | Ean: **5908254843983**

PRODUCT DESCRIPTION

A furniture socket is a practical solution that works well in interiors where easy access to electricity is needed. The presented socket is surface-mounted and thanks to its design it may be aesthetically integrated into, e. g. desks, bathroom cabinets or office countertops. It is IP20 rated and may be installed in dry places not exposed to moisture.

It is equipped with two French-type sockets (2x2P+E). This enables to connect two devices in one place in a

ORNO GROUP Sp. z o. o. All rights reserved.

tangle free and neat manner. The operation of the socket is effective and safe due to 230V voltage and max. load of 3680W. The cable (3x1.5mm2) 0.6m long facilitates to connect devices and ensures flexibility and durability.

The socket is made of black plastic. It is elegant and modern; thus, easily adapts in multitude of spaces.

Grey and silver as well as Schuko-type versions are also available.

TECHNICAL DATA
