ORNO

PRODUCT DESCRIPTION

REDE set of 3 furniture sockets (2P+E) from NORGEN series, built inside an aluminum panel. The device is designed for installation in desks, countertops and tables. It has a closed lid and a 1.5 m long cable. The use of this type of sockets is particularly useful in offices, conference rooms, and even in student rooms. It is a perfect solution wherever we need to connect many electrical devices, but also when we pay attention to the elegant appearance of the workplace. In addition, the socket cover protects them against dirt and dust. The product is made of aluminum and black plastic.
