Hermetic double socket, rectangular, IP55, black

Marka: **Orno** | Symbol: **OR-GM-9047/B** | Ean: **5908254847165**

PRODUCT DESCRIPTION

The hermetic double socket designed to be built-in is a perfect solution for both domestic and commercial spaces. It works well in places where high resistance to external factors is required.

It has two French-type sockets which enable connecting two devices with max. load up to 3680W simultaneously. The socket operates at 230V, 50Hz; thus, it is suitable for most standard electrical installations.

The high IP55 ensures that the product is resistant to dust and water jets and may be used for years. The socket is made of durable zinc alloy and high-quality plastic to guarantee reliable operation. The black finish is aesthetic and minimalistic. A built-in protective cover additionally protects the sockets from dust and moisture. The cover opens at an angle of 110°, allowing convenient access to the sockets.

The socket has rectangular shape measuring 166x90x42,4 mm and an edge 6 mm thick, which facilitates installation.

Available also in silver.

TECHNICAL DATA

General information:

Model:	Do wbudowania
Folding:	tak
Extendable:	nie
Nominal voltage [V]:	230
Frequency [Hz]:	50
Max. Load [W]:	3680
Standard of the socket:	French (typ E)
Number of socket outlets French standard (Type E):	2
Degree of protection (IP):	IP55
Shape:	Prostokątny
Length [mm]:	166
Width [mm]:	90
Height [mm]:	42.4
Edge thickness [mm]:	6
Material:	Stop cynku i tworzywo sztuczne
Color:	Czarny
Other:	Kąt otwarcia klapki: 110°
