In-wall junction box, double, windproof, 60mm

Marka: **Orno** | Symbol: **OR-JB-13800/2** | Ean: **5908254849855**

PRODUCT DESCRIPTION

The double windproof in-wall junction box is a functional solution for installing sockets in the wall. It has an oval shape and is equipped with 8 grooves enabling easy installation of sockets.

The tubular cable grommets and a membrane gland are suitable for 16x20 mm and 20/25 mm diameter pipes. Additionally, it is equipped with an internal partition and windproof elements, ensuring effective protection of the installation. The box has outlets at the back, which facilitate its installation and ensure stability.
