Universal junction box cover Ø80

Marka: **Orno** | Symbol: **OR-JB-13895** | Ean: **5904988917891**

ORNO

PRODUCT DESCRIPTION

The cover for junction boxes designed for use in electrical installations in walls and ceilings. It provides protection against contamination, e.g. during plastering or painting.

Boxes, rings and covers allow for the precise installation of electrical accessories, and the plug-in mounting method allows the cover to be pressed quickly and conveniently into the box. The product serves as a temporary cover during renovation.

Made of orange plastic. Circular shape with a diameter of 80 mm.
