

Wireless outdoor Wi-Fi camera, Smartphone communication with Tuya app, IP65, intercom, memory

Marka: **ORNO Home** | Symbol: **OR-MT-ME-1809** | Ean: **5908254823350**

PRODUCT DESCRIPTION

A Wi-Fi camera is a monitoring element that significantly increases the level of security in a room or around a property. Our wireless Full HD camera that communicates with the user's smartphone thanks to a Wi-Fi connection. Just download a free Tuya application to view the recorded image in real time. The device has a place for a micro SD card (not included) that allows you to record video and a sensor that starts recording videos after motion has been detected. The camera has a built-in loudspeaker and a microphone and thanks to the Wi-Fi connection you can talk to a person standing in front of the camera. It has an additional

backlight with IR LEDs, which provide a very clear image even after dark. Powered by a built-in, rechargeable battery, charged via USB. Optionally the camera can be powered by solar panel OR-MT-ME-1809PS (not included). High resistance to weather conditions

TECHNICAL DATA

General information:

Wireless:	Yes
Model:	Fixed position
Height:	102 mm
Scope od application:	Outside
Depth:	55 mm
Mounting method:	Surface mounted (plaster)
Property picture system:	Colour
Interface type:	Wi-Fi
With lens:	Yes
With IR lamp:	Yes
Maximum infrared range:	10 m
With video motion detector:	Yes
Power consumption:	170 W
Supply voltage range:	3.7 V
Width:	55 mm
Voltage type:	DC
