### PRODUCT DESCRIPTION

ToDo series combines simple solutions suitable for domestic and professional use. It is a basic electrical equipment series applied in every building thanks to thought-out and simple design. You may use ToDo in service rooms and offices, but also in private residences or flats.

It is aesthetic and minimalistic. Premium quality materials ensure high resistance to UV radiation and mechanical damages.

The three-way switch is intended for surface mounting. The product is used to connect and disconnect the circuit with the stair lighting. This type of switches is always installed in pairs. Its function is to activate, for example, lighting from different places or floors. Similarly, you may install lighting in the bedroom that turns on when you enter the room. You can turn it off right next to your bed, without having to go back to the main switch.

Surface mounted. For indoor use (IP20).

Dimensions: 65x65x35 mm. The pack contains 10 pieces.

The product is also available for sale in 1 piece and in white and black.
