Marka: Orno | Symbol: OR-OE-7301/WB/10 | Ean: 5908254830716

ORNO

PRODUCT DESCRIPTION

Aquatic Mini, is the sister brand of the classic Aquatic designed for special tasks.

Due to its small size, it is suitable for use wherever space is at a premium and protection against dust and water jets is required - the Aquatic features protection class IP54.

The accessories in this range consist of sockets and switches, providing the comfort of assembling

components for an entire room or even building with a consistent aesthetic.

The Aquatic Mini two-button switch is used to control lighting, for example, composed of chandeliers and traditional or modern LED bulbs. It allows you to switch lighting on and off, divided into two or more zones. The Aquatic Mini is small, so it will fit into tight recesses or on a narrow section of wall near a door.

In addition, the MINI series offers an aesthetically pleasing design that fits in with both commercial and industrial interiors. Well-fitted switch buttons and housing elements ensure safe use for a long time. Switch in black and white. Package of 10 pcs.

TECHNICAL DATA

General information:
