# Double frame Luna, Ra-2L, white

Marka: **Orno** | Symbol: **OR-OE-7620/2/W** | Ean: **5904988912391**

ORNO

PRODUCT DESCRIPTION

Modular series of switches and mains sockets, IP20 rated, with a calm classic design. It has symmetrical frame plate system (for 1-, 2-, 3-, 4-, 5-modules) enabling to install the products both vertically and horizontally. The series includes the so-called middle frame, which guarantees proper mounting of the main frame or multiple frames to the wall. Additionally, it allows to create various colour options using frames, middle frames, buttons or socket covers, which is important in individual composition of the interior. The silver contacts of the switches are produced by welding, which guarantees much greater durability and security of the connection than in

the case of riveted contacts.

The switches' modern quick-connect mechanism (wires are connected by pushing them directly into the body) provides secure and safe wire installation and removal. The sockets are equipped with traditional screw connections. The internal design of the terminals guarantees secure connection of wires from 0.75 mm² to 2.5 mm². Strong and robust mounting plate grid and special mounting elements enable stable and secure installation in the box.

Double frame for Luna series. It should be used indoors (IP20).

The product is available in white color. Dimensions 150x81x6mm.

TECHNICAL DATA

General information:

Number of units:	2
Mounting direction:	Poziomy i pionowy
Number of modules horizontal (module system):	2
Label space/information surface:	Nie
Material:	Tworzywo sztuczne
Material quality:	Tworzywo termoplastyczne
Surface protection:	Malowanie
Surface finishing:	Błyszczący
Colour:	Biały
Degree of protection (IP):	IP20
Type of fastening:	Zatrzask
Width [mm]:	150
Height [mm]:	81
Depth [mm]:	6
