### PRODUCT DESCRIPTION

Use of the LED technology guarantees high energy efficiency and long life of the ceiling light fitting. The lamp integrates ideally with any interior due to its base made of resistant ABS combined with the non-breakable milk PC lampshade. Its high tightness (IP66) ensures protection against dust and strong water jets, therefore it can be installed both indoors and outdoors. The microwave motion detector located inside the ceiling light fitting responds to motion and the twilight sensor switches lighting on only if necessary (depending on settings).
