DIN rail digital timer, 100 programmes, 3 menu languages, 1 chanel, max.16A/230V, 2 modules wide

Marka: **Orno** | Symbol: **OR-PRE-450** | Ean: **5908254824586**

PRODUCT DESCRIPTION

This multi-functional timer allows to save electricity and facilitates the use of various electrical devices. The built-in astronomical clock calculates sunrise and sunset times within a defined geographical area and time zone. This timer switches the power supply on and off within a specified period of time, and 100 switching points allow you to adjust the settings to your individual needs. Types of programs: weekly, annual and astronomical. Operation modes: manual, automatic, holiday, random. The device is ideal to control the operation of lighting, water heaters, motors, pumps, etc. It has a built-in battery that maintains the clock
