

Wireless power socket with radio receiver, IP20, ORNO Smart Home, Schuko

Marka: ORNO Home | Symbol: OR-SH-1732(GS) | Ean: 5908254828638

PRODUCT DESCRIPTION

The ORNO Smart Home indoor socket is the ideal solution for wireless control of electrical appliances. Thanks to the radio receiver and the possibility of connecting remote controls or a central socket, you can easily switch on and off lamps, fans, air conditioners or other devices. It is not only convenient, but also a safe solution - the socket is suitable for use indoors.

The ORNO Smart Home socket has been designed with simplicity and convenience in mind. The receiver is

easy to connect between the socket and the plug of the controlled device.

Thanks to radio connectivity, the socket's operation is effective in open areas up to 30 metres. The device is also compatible with the ORNO Smart Home system based on the TUYA engine, allowing integration with Google and Alexa smart home systems.

If you are looking for a convenient and functional solution, the ORNO Smart Home socket is the perfect choice. You can easily adapt it to your needs thanks to its compatibility with other ORNO sockets and wireless remote controls, e.g. (OR-GB-440(GS), OR-GB-439(GS), OR-GB-438(GS), OR-GB-441(GS)).

It is a product that is not only practical, but also aesthetically pleasing - it looks nice on the façade of a building or in the garden. Don't delay and start enjoying the benefits of intelligent control of your electrical appliances today. Schuko type socket.
