ORNO

PRODUCT DESCRIPTION

LED strip creates unique ambiance when providing light to rooms, ceilings, shelves and many other spaces. It features wide light diffusion angle and safe power supply (12 V DC). 120 LED strip 2835SMD (9.6W/m) can be used as a decorative element for interiors where accent lighting or furniture lighting is necessary. High ingress protection level guarantees full protection against dust and increased water tightness. White light tone of the strip creates fresh and stimulating atmosphere to live and work.
