

Video camera for the extension of VIBELL series, with keypad

Marka: **Vibell** | Symbol: **OR-VID-EX-1061KV** | Ean: **5900378655886**

PRODUCT DESCRIPTION

Video camera, for the extension of VIBELL video-door-phone sets. It has a colour, wide-angle camera which has been equipped with additional lighting in form of bright LED diodes enabling night vision. This camera has a numeric keypad and a RFID reader used to grant access to authorised users only. Built from a very durable material which guarantees its resistance to variable weather conditions. Once it is connected to any VIBELL video-monitor, the device enables conversation between the camera and an internal panel, activation of gate control function, or opening of the door lock output. Additional functions require additional power source

(included). Available in black colour.
