

## Video monitor 10", Wi-Fi, touch screen, for extension of the GADI and GAYD sets

Marka: ORNO Home | Symbol: OR-VID-MA-1085PMV/B | Ean: 5908254851520

### PRODUCT DESCRIPTION

The video monitor to expand the GADI and GAYD set, intended for single- or multi-family houses, provides full control and monitoring of entrance to the property. Designed to provide safety and convenience of use with the help of smart technology.

The GADI monitor is equipped with a large 10-inch touch screen that guarantees clear colour picture and intuitive navigation. Thanks to the 2-wire connection, installation is simple and allows for independent

connection, regardless of polarity.

Advanced smart feature facilitates to remotely control the device via Wi-Fi and the Tuya Smart application, which can be operated from anywhere in the world. This makes it easy to monitor entry to the property. Simply install the Tuya Smart platform on your Android or iOS smartphone and synchronize it with the GADI video monitor.

The wicket and two gates (e.g. entrance and garage) may be conveniently controlled both from the monitor and the mobile application.

The device is equipped with additional functions, such as a microSD card reader and an answering machine. This is to provide a comprehensive solution for entry control and monitoring. The user does not have to worry about the possible lack of video and photo recordings during an absence or during an already received call. The microSD card enables the log recording function, and the answering machine allows the guest to leave a voice message. The video monitor has 5 built-in melodies, and the microSD card facilitates to upload your favourite music in mp3 format. This feature allows to individually adjust the call sound. The different volume levels, including complete mute, as well as the option of setting a specific level for three different times of the day provide full freedom to adjust the sound to your own preferences. The photo frame and weather forecast functions allow to read photos stored on the microSD card and check the current weather conditions in a standby mode. This is a practical purpose of the device even when not in use. It simultaneously looks aesthetic.

Video monitor in black, made of high-quality plastic. The dimensions measure: 255x180x26 mm. Surface mounted.

Possibility of expanding GADI and GAYD sets with additional video monitors (max. 6 in the set).

## TECHNICAL DATA
