PRODUCT DESCRIPTION

The modern CONESSI Full HD video intercom set consists of a 7" ultra-slim LCD colour monitor providing an excellent quality picture and an external cassette with a Full HD camera with a very wide viewing angle. The external panel is equipped with a canopy providing protection against rain or snow, as well as against sharp sun rays. Communication between the indoor and outdoor panels does not require a handset. After

downloading the free TUYA app, the user can control the device from their smartphone and record sounds and videos via the Tuya app and play them back on their smartphone. Additional IR LED illumination on the outdoor panel allows night vision, and a built-in RFID reader allows access with proximity cards and key tags.
