Code lock with card and proximity tags reader, doorbell button and Bluetooth, SUPER SLIM, IP68, 3A relay,

Marka: **ORNO Home** | Symbol: **OR-ZS-824** | Ean: **5908254819605**

PRODUCT DESCRIPTION

The autonomous code lock combines the functions of a digital access control keypad as well as a card and proximity tags reader. This modern device works with electromagnetic locks with an access control system. It can also control other electrical or alarm devices. The lock has 1 relay output and a card and proximity tag reader. Authorized people may enter the room or building after reading the card or entering the access code. One can use the built-in bell button as well and wait for the door to open. The lock's keypad is backlit, so entering codes after dark is not a problem. Its durable housing makes it extremely resistant to changing

weather conditions. The lock is suitable for surface mounting. It is extremely narrow and can be easily mounted on a fence post. Two tags (OR-ZS-890) and two proximity card (OR-ZS-892) included.

TECHNICAL DATA

General information:

Working temperature:	-30⏣~+60⏣
Touch keyboard:	Yes
Doorbell button:	Yes
Type:	Touch Code Lock
Operating mode:	card/code
Degree of protection (IP):	68
Type of transmission:	wired
Number of relay outputs:	1
Nominal voltage:	12V DC
Load capacity:	3A
Max. number of users:	1000
Installation:	surface mounting
Dimensions - depth:	22 mm
Proximity reader:	Yes
Dimensions - width:	45 mm
Keypad:	Yes
Dimensions - height:	149 mm
Frequency:	125 kHz
Backlight:	Yes
Fingerprint reader:	No
