PRODUCT DESCRIPTION

Power strip with surge protection and a 1.5-meter cable that allows connection of 5 electrical devices with a total power consumption of 2300W. All sockets have Schuko grounding. The power can be turned off with the two-way, illuminated main switch. Thanks to the surge protector, the device effectively protects the connected equipment against voltage surges caused by weather conditions or network failures. It has 2 USB

ports, and thanks to the flat plug, it can be connected to the power sockets located behind the furniture.
