

RELI TR-1 light track, 2m white

Marka: **Virone** | Symbol: **TR-1/W/2M** | Ean: **5908254814761**

PRODUCT DESCRIPTION

The light track is made of aluminum painted in white. It is 2 m long and 36 mm wide. Inside, there are copper wires placed in insulating plastic guides. The type of construction used makes it possible to adapt the track to the required length. Thanks to light tracks, we can use a modern form of lighting, the main advantages of which are versatility and functionality. The track system is easy to configure, with fewer wires, and it makes it possible to supply multiple loads with one line.

TECHNICAL DATA
