

PAVONIS MULTI, two-family video doorphone set, 4-wire, 7", Wi-Fi, touch screen, Full HD, RFID

Marka: **Virone** | Symbol: **VDP-69** | Ean: **5908254843259**

PRODUCT DESCRIPTION

Two-family video doorphone set PAVONIS MULTI with a touch screen and a Full HD camera. The set helps to fully control and monitor entrances to your property. Designed to make you feel safe and comfortable thanks to built-in smart home technology.

Connecting the device to WI-FI enables remote control compatible with Tuya Smart platform. Simply install the app on your smartphone (supports Android and iOS systems) and synchronise with the video doorphone.

Connecting PAVONIS MULTI device to Tuya Smart platform makes it easy to use the video door phone from anywhere in the world.

The indoor unit is a big 7-inch touchscreen display with clear image thanks to which it is easy to control entrances to the property. You may manage the wicket and the gate in a convenient way from the screen – touching it or using a mobile app.

Intercom may be expanded with additional screens that may create entrances' monitoring system located in comfortable and quickly accessible places in the home. Moreover, it is possible to make calls inside a house facilitating communication between householders. This solution works, for example, between floors.

Thanks to memory function built in the monitor the image recorded by the camera may be saved to microSD card while you are away or during a call. The register from the camera outside the property may be checked every minute with the help of the screen or the mobile app.

The set may be expanded by max. 4 screens per family. Modern design fits in every interior.

The monitor is 181x181 mm, surface mounted. Made of white and black plastic.

The outdoor unit has built-in camera with resolution as high as 1920 x 1080 Mpx. It takes photos and records full HD footage. A wide viewing angle of 54° vertically and 112° horizontally provides full view in front of the wicket.

The outdoor unit is equipped with motion sensor which registers images and movies after motion near the wicket has been detected (it may recognise intruder near your home and alert of the incident).

The recording is saved to microSD card installed in the monitor. Because the aluminium outdoor panel has IP65 level as well as a rain cover you do not need to worry about the durability of the device. The in-built RFID and proximity tags reader allows entry for authorised persons.

The set may be expanded with additional CCTV cameras and may be installed in any place. This creates a full monitoring system. The night IR lighting installed in an outdoor panel ensures visibility in the dark without dazzling the visitor (range up to 1 m).

The outdoor panel is silver 91x182 mm. It has a name plate.

The device has 6 different melodies with 4-stage volume control, including total mute, that can be adjusted to individual preferences.

The equipment has function of answering machine thanks to which a visitor may leave a message while the householder is absent.

The intuitive 4-wire connection facilitates fully save self-assembly. A great convenience is electric strike (max. 500mA) powered directly from the video door phone. No additional power supply is needed for the wicket which results in fewer wires running through the garden.

TECHNICAL DATA

General information:

Type:	wielorodzinny
With video:	tak
Current supply:	Zasilanie sieciowe
Nominal voltage [V]:	12V DC 1,5A
Type of transmission:	przewodowy
Can be connected to smartphone:	tak
Wi-Fi Frequency:	2.4GHz
Wi-Fi standard:	IEEE 802.11 b/g/n
App:	Tuya Smart
Installation technique:	System wieloprzewodowy
Number of wires (*from outdoor unit to electric strike):	4
Number of indoor stations:	2
Number of outdoor stations:	1
Expandable to max. number of indoor stations:	4
Expandable to max. number of outdoor stations:	1
Expandable to max. number of CCTV cameras:	2
Operation door lock:	tak
Current supply of the electric strike:	dodatkowy zasilacz niewymagany
Connection system of the electric strike:	z panelem zewnętrznym
With automatic door opener:	tak
With day/night function:	tak

Monitor:

Mounting method indoor station:	Montaż natynkowy
Hands free:	tak

Screen diagonal [inch]:	7"
Screen resolution:	1024x600
Touch screen:	tak
Property picture system:	Kolor
With memory function:	tak
SD card reader:	tak
Internal communication:	tak
Number of ringtones:	6
Specific call tone:	tak
Loudness control:	tak
Mutable call tone:	tak
Material indoor station:	Tworzywo sztuczne
Colour indoor station:	Czarno-biały
Dimensions of the monitor - Width [mm]:	181
Dimensions of the monitor - Height [mm]:	181
Dimensions of the monitor - Depth [mm]:	18
Other features:	automatyczna sekretarka;stacja pogody

Outdoor unit:

Number of call buttons:	2
Mounting method outdoor station:	Montaż natynkowy
Camera resolution:	1920x1080
Camera view angle (horizontal):	112°
Camera view angle (vertical):	54°
Night light:	IR
With digital door code:	nie
Card and proximity tags reader:	tak
Frequency of RFID tags:	125kHz
Label space/information surface:	tak

With cover:	tak
Vandal proof:	nie
Degree of protection (IP):	IP55
Material outdoor station:	Aluminium
Colour outdoor station:	Srebrny
Width [mm]:	91
Height [mm]:	182
Depth [mm]:	44
Other features:	RFID - max. 24 użytkowników (breloki w zestawie: 5 użytkownika + 2 administracyjne)
