

Ventilation grille with hood Ø80-150, graphite

Marka: **Virone** | Symbol: **VGS/H/80-150/G** | Ean: **5904988914876**

ViRONE

PRODUCT DESCRIPTION

Grille intended for use outside buildings as the end of mechanical ventilation. The shape of the hood protects against water coming in from outside. The check valve protects against adverse backdrafts, and the net blocks bird access and prevents rubbish from falling into the ventilation. The back of the grille is constructed with a cross latch system, thanks to which the grille can be mounted at the end of a ventilation duct of any shape within a span of 80-150 mm.

Grille material: ABS.
Available in white and graphite.
Hole diameter: 80-150 mm.

TECHNICAL DATA

General information:

Material:	ABS
Surface protection:	Stan surowy
Front width [mm]:	170
Colour:	Grafit
Shape air duct:	Okrągły
For duct diameter [mm]:	80-150
