PRODUCT DESCRIPTION

LIRA handset-free video doorphone set with a color 4.3" display (external panel + monitor). Simple and convenient to use LIRA videophone set, dedicated to single-family houses, entrance control and enables communication between house residents and their guests. It allows you to safely open the door only with the use of the monitor. It is functional and easy to use with a clear menu. It's basic functions and controls are suitable even for the elderly people. LIRA set consists of two elements: • External panel, i.e. a discreet and elegantly made silver-colored panel, housing a camera with a horizontal viewing angle of 68°. It also has high

resistance to force / mechanical damage. The panel with the camera is designed for surface mounting and is made of aluminum. Resistant to dust and moisture (IP44), it has got its own roof that protects the device against continuous rainfall and exposure to water. The entry panel is also equipped with a simple call button, a loudspeaker and a name plate. The camera works in the day and night mode, thanks to the IR LEDs with a range of 1m and allows you night vision, at a resolution of 700 TVL. • 4.3 inches monitor is also suitable for surface mounting. It displays a color image from the camera, additionally it allows you to mute the ringer and choose one of the 16 pre-programmed ringtones. The screen of the monitor is not touch-responsive; however, it has a number of intuitive, touch buttons that allow easy control. LIRA is a so-called single-family set, where one panel is connected to one control monitor. However, it can be expanded with an additional LIRA external camera panel.
