

USB-A to USB-C cable Miccell VQ-D06, 2.4A, 1m, white

Marka: VIRONE by Miccell | Symbol: VQ-D06-004034 | Ean: 5908254853111

PRODUCT DESCRIPTION

Need a charging and data transfer cable? Select the 1m white USB-A > USB-C cable.

The USB-A > USB-C cable is used for charging and data transfer between devices with different types of connectors. It allows you to connect smartphones, tablets and laptops with a USB-C port to a computer, power bank or charger equipped with a classic USB-A port.

Connect your phone or accessories and use them comfortably – the cable does not restrict your movements

at your desk or couch. The flexible cover makes it easy to roll it up into a backpack or store the cable in a drawer.

The ends hold the device's ports securely, so the plug does not come out with a slight tug.

The flexible braid allows you to roll up the cable (easily stored in a backpack or drawer), and the connectors hold securely in the socket.

It works well in the office, car and at home.
