

USB-A to microUSB cable Miccell VQ-D06, 2.4A, 1m, white

Marka: VIRONE by Miccell | Symbol: VQ-D06-004040 | Ean: 5908254853012

PRODUCT DESCRIPTION

Need a cable that just works? This white 1 m USB-A > Micro USB cable will provide you with a stable connection and fast charging. **You will connect your phone, headphones or other devices.**

The USB-A – microUSB cable is used to connect mobile devices with the older microUSB connector to other devices or chargers equipped with a standard USB-A port.

The flexible design makes it easy to roll up, and the connectors hold well in the socket.

The cable does not limit movements at the desk or on the couch.

The cable ends hold the ports securely, so the plug does not come out with a slight tug.

It will work well in the office and at home.
