

## USB-A/C to USB-C/Lightning cable Miccell VQ-D145, 240W, 1m, black

Marka: **VIRONE by Miccell** | Symbol: **VQ-D145-005989** | Ean: **5908254853265**

### PRODUCT DESCRIPTION

**One cable, multiple chargers.** The Miccell VQ-D145 is a cable that replaces several different cables at once. **Allows you to charge and transfer data between devices with USB-A, USB-C, and Lightning ports.** This allows you to easily connect your iPhone, iPad, Android smartphone, laptop, tablet, power bank or console – regardless of the type of connector.

Supports different power levels depending on configuration:

- USB-C – USB-C: up to 240 W (!),
- USB-C – Lightning: up to 27 W,
- USB-A – USB-C: up to 18 W,
- USB-A – Lightning: up to 12 W

**The braided cover protects the cable from abrasion and bending, while the aluminium alloy connectors ensure durability and a secure connection even with heavy use.**

The 1-meter length makes the cable easy to take with you when traveling.

The black colour and metallic finish give it a professional look.

Miccell VQ-D145 is a cable that **will charge multiple devices** without the need to carry several different cables.
