

USB-C to USB-C cable Miccell VQ-D34, 60W, 1.2m, black

Marka: VIRONE by Miccell | Symbol: VQ-D34-003759 | Ean: 5908254853180

PRODUCT DESCRIPTION

Get a cable that keeps up with your devices. **The Miccell VQ-D34 model with a power of 60 W ensures fast and stable charging of smartphones, tablets, consoles and ultrabooks with USB-C port.** You can use it to power and transfer data between modern devices.

The 60W power is enough to charge most laptops and mobile devices in a short time without excessively burdening the battery. If you need a cable for lightweight electronics (e.g. smartphones), choose the 30W version, and for laptops with higher power consumption, choose the 100W model.

The 1.2 m length and black colour make the cable suitable for use at home, in the office, and while travelling.
