

LED COB worklight 15W, 1000lm, 2000mAh

Marka: **Virone** | Symbol: **WL-15** | Ean: **5908254843488**

ViRONE

PRODUCT DESCRIPTION

LED COB worklight with a luminous flux of 1000lm and max. power of 15W. The device combines multifunctionality and efficiency. Thanks to it performing once's duties is comfortable and precise as, despite small size, it illuminates room perfectly. The battery-operated lamp works ideally in different places ranging from garages, basements and construction sites to places where you perform everyday tasks; it works ideally even on trips.

The lamp has IPX4 ingress protection level, which means, that it is resistant to moisture and splashing. It is suitable to use even in heavy weather conditions.

The device is equipped with 3 lighting modes (high, low, strobe) and a stand regulated within the range of 180° to adjust the intensity and the angle of the light to one's own needs. Thanks to the LED COB technology the lamp emits intense but energy saving light of cool 6000K colour and very wide beam (above 80°).

Additionally, the stand acts as a hook for hanging to install the lamp in a convenient place. An in-built magnet allows to attach the device to metal surfaces without holding it in hand. The light is provided in every situation as you may fasten the lamp, e. g. to work trousers or backpack with the help of a clip hook incorporated in the stand.

The worklight is equipped with a thread suited for a tripod (1/4"). This is useful when you need permanent illumination without holding the lamp in hands.

The lamp is powered by 2000mAh Li-ion battery. This solution is convenient as you do not need to replace batteries frequently. The device is loaded via popular USB C input (the power cable included in the set). A built-in battery indicator shows the battery's state of charge. The battery charge levels (25%, 50%, 75%, 100%) help to avoid unexpected interruptions during work. Operating time while fully charged reaches up to 6h.

The housing is made of grey-black plastic. The worklight's dimensions are: 82x47x82 mm.

TECHNICAL DATA

General information:

Lamp type:	LED, niewymienne
Battery capacity [mAh]:	2000
Type of battery:	Akumulator Li-ion
Battery included:	tak
Suitable for lamp power [W]:	15
Rated luminous flux according to IEC 62722-2-1 [lm]:	1000
With light source:	tak
Colour temperature [K]:	6000
Beam angle:	Wiązka bardzo szeroka > 80°
Colour rendering index CRI:	70-79
Colour of light:	Zimna biel

Degree of protection (IP):	IPX4
Material housing:	Tworzywo sztuczne
Material cover:	Tworzywo sztuczne przezroczyste
Colour housing:	Szary/Czarny
With switch:	tak
Width [mm]:	82
Height/depth [mm]:	47
Length [mm]:	82
Other features:	Port USB C, wskaźnik naładowania baterii, magnes, ruchoma podpórka (180°), karabińczyk, gwint do statywu
